Attachment to Advisory Action

The addition of the term "only" yields a new issue. There is also no support in the specification

for the "assembly sheets being bonded to each other 'only' along edges of the sheets". Such an

addition would be considered new matter. On page 3, paragraph 2, the specification only supports

the recitation that the "assembly sheets are bonded to each other along a continuous bonding line

extending along edges of the sheets". There is also no support in the specification for the term

"exclusively". The assembly sheets with the continuous bonding line 'only' along the edges is not

shown in the drawings. King et al clearly discloses the continuous bonding line along the edge of

the sheets as claimed and as disclosed by applicant.

In the After Final Amendment, claim 16 was not copied correctly from the originally submitted

claim 16 and is missing language.
